

Kanatek Professional Services

Kanatek's team of professionals offer deep expertise in the area of data and storage management to optimize or upgrade your current environment. We use industry best practices to help you manage explosive data growth and to minimize storage and recovery costs to your organization.

Let Kanatek help you make the most of your existing infrastructure or allow our experienced professionals to work with you to re-design for increased efficiency.

OUR SERVICES INCLUDE:

- Cloud Strategy
- Health Checks
- Enterprise Assessments
- Planning and Configuration Services
- Disaster Recovery / Business Continuity Planning
- Software Services
- Decommissioning
- Kanatek Managed Services
- Kanatek Residency

Solutions are always customized to the unique requirements of your environment and organization. We employ our Kanatek AIMS™ Methodology to architect and deliver a sustainable solution that will support your corporate data management strategy, going forward.
